- 2018 *exp.* PhD Business Administration, University of California, Berkeley (in progress)
2015 MS Business Administration, University of California, Berkeley
2013 MSc Statistics, National University of Singapore
2011 Bachelor of Accountancy, Singapore Management University
2011 BSc Economics, Singapore Management University

RESEARCH

Completed or under-review manuscripts

"Accounting Choices and the Legal Environment: the Impact of the *Ex Post* Loss Rule". Job market paper.

- ▶ *Summary*: I use a Supreme Court case as a natural experiment to examine the impact of a fundamental feature of the legal environment—the *ex post* loss rule—on accounting choices.
- ▶ *External grant*: Proposal was awarded the Gil Geis Memorial PhD Scholarship.
- ▶ *Presentations*: AAA/Deloitte/J. Michael Cook Doctoral Consortium, AAA Annual Meeting, AAA Western Region Meeting, CMU Accounting Mini Conference, Conference on Empirical Legal Studies (*scheduled*), Trans-Atlantic Doctoral Conference.

"How Do Accounting Practices Spread? An Examination of Law Firm Networks and Stock Option Backdating", with Patricia Dechow. Revising for *The Accounting Review*.

- ▶ *Summary*: Using a dataset of law firm-client relationships, we find evidence that stock option backdating spread between companies via law firms.
- ▶ *Presentations*: AAA Western Region Meeting Doctoral Student/Faculty Interchange.

"Segment Management to Delay Goodwill Write-downs", with Henry Laurion & James Ryans.

- ▶ *Summary*: We find evidence that due to the interaction between the goodwill and segment reporting standards, firms manage segments to delay or avoid impairments.

Selected work in progress

"The Dynamics of Analysts' Post-IPO Recommendations", with Margaret Fong & Panos Patatoukas

"Legal Advisors and Post-Acquisition Outcomes", with Patricia Dechow
